

Elevation Junior Golf Academy

BirdieBall Saturdays

In golf, like any activity, it is important to capture a child's interest early and make it a fun experience. BirdieBall Saturdays will do just that! BirdieBall is the revolutionary limited flight practice golf ball that has been amazing people for over a decade. It flies a maximum of 40 yards and mimics the feel and flight path of a real golf ball. This is a fun and easy way for youths to see the excitement and fun of golf.
